Will Andrée

Full stack developer with a sweeping background in JavaScript-driven technologies. Avid practitioner of phased prototyping. Proponent of code and application architectures of the utmost readability.

Experience

Front-end Developer/Lead Designer
Jubilant Digital Marketing, March 2022 - Aug 2023

- Working in concert with clients and project manager, generated websites optimized for maximum web visibility. The wide scope of my work included website prototyping, brand retooling, and web development.
- As Lead Designer, produced brand style guides, new and redesigned logos, and designed web campaign ads.

Web Development Instructor
Nucamp Coding Bootcamp, June 2019 - March 2022

Teaching beginning-to-advanced front-end development, ranging from HTML/CSS/JavaScript to Bootstrap and React. Provided a weekly lecture and facilitated ongoing learning with intensive class projects and weekly assignments.
